## Objective

---

Motivated and detail-oriented cybersecurity enthusiast seeking an entry-level position in network security or SOC analysis, where I can apply my CCNA, CEH, and Linux skills to contribute to securing IT infrastructure and grow within a professional cybersecurity environment.

## Experience

---

- **CCNA** 2022 - 2023  
🎓 Training
  - CCNA (Cisco Certified Network Associate)  
Cisco Networking Academy
- **Microsoft** 2023 - 2023  
🎓 Training
  - Network Security Essentials  
Microsoft Learn  
Completed training on network threats, firewalls, VPNs, and secure network configurations.

## Education

---

- **Fayoum University** 2021  
Information Technology

## Skills

---

- Networking Fundamentals – Solid understanding of routing, switching, and network protocols (CCNA certified)
- Windows Server Administration – Managing Active Directory, DNS, DHCP, Group Policy
- Firewall Management – Configuration and monitoring of firewalls for securing network boundaries
- Linux Administration 1 – Hands-on experience with Linux systems (Ubuntu, CentOS, Kali) for security tasks
- Ethical Hacking – Knowledge of penetration testing methodologies and tools

## Achievements & Awards

---

- CCNA (Cisco Certified Network Associate)
- Certified Cyber Security Professional Cyber X
- Microsoft security

## Interests

---

- • Cybersecurity trends & ethical hacking
- • Reading about real-world cyber attacks and defenses
- • Participating in Capture The Flag (CTF) challenges
- • Tech podcasts and cybersecurity blogs
